Guess the Big Bang Age

February 2017

The Big Bang theory

Aim of the Game

- Data will be used in practical 2
- Before we start, pack away everything, except a pen.
- Work in groups of 2-6.
- Fill out the details at the bottom of your sheet.

Aim of the Game

- Data will be used in practical 2
- Before we start, pack away everything, except a pen.
- Work in groups of 2-6.
- Fill out the details at the bottom of your sheet.
- In your groups, guess the age of the Big Bang Star;
  - I'll show you a recent picture of an actor/actress. You guess their age at this moment in time.
  - Prizes (of the Jelly Bean variety) for the best team.
  - Best will be decided by error (see later).

Aim of the Game

- Data will be used in practical 2
- Before we start, pack away everything, except a pen.
- Work in groups of 2-6.
- Fill out the details at the bottom of your sheet.
- In your groups, guess the age of the Big Bang Star;
  - I'll show you a recent picture of an actor/actress. You guess their age at this moment in time.
  - Prizes (of the Jelly Bean variety) for the best team.
  - Best will be decided by error (see later).
- Remember your team number. Write on the front page of your notes.
- All ages are in integers.

Cheating!

- If I catch you cheating, i.e. using phones, etc...

Cheating!

- If I catch you cheating, i.e. using phones, etc...
- I will pick on you every lecture to answer questions
- I will also ask other lecturers to do the same.

Amy

Howard

Leonard

Penny

Raj

Sheldon

Amy -

Amy - 41

Howard -

Howard - 36

Leonard -

Leonard - 41

Penny -

Penny - 31

Raj -

Raj - 35

Sheldon -

Sheldon - 43

Absolute Error

- Now fill out the absolute difference column and total them.
- Remember to use absolute values for the error!

Statistical Concepts - tomorrow's lab

- Do you think males are better than females at guessing ages?
- What about regular BB watchers?
- Did some groups consistently over/under estimate?
- Which people didn't look their age?
- Are you better than last year's group?
