

Student Profile

Sam Fisher

Why did you choose to come to Newcastle?

The sheer quality of the open day drew me here!

What do you enjoy most at Newcastle?

The opportunities available to me. Everything I have had an interest in I've been able to fulfil at Newcastle alongside some of the friendliest people I've met.

What subjects did you study for A-Level?

Maths, Further Maths, Biology and Psychology.

What are your favourite modules?

I found Chaos and Quantum Mechanics the most interesting. They throw conventional physics out of the window!

What are you going to specialise in?

I currently specialise in Applied Maths.

What do you want to do after Uni?

Undecided...

And finally ... What is your favourite Maths joke or chat-up line?

What do you call a teapot of boiling water on top of Mount Everest? A high-pot-in-use!!
