

Student Profile

Chloe Johnston

Why did you choose to come to Newcastle?

When I came to visit Newcastle I fell in love with the city; everybody is as friendly as they say! I really like the fact that the campus and accommodation is in the city centre.

What do you enjoy most at Newcastle?

I wouldn't be able to pick! There is so much to do and explore around the city, as well as joining societies, making new friends and trying new things.

What subjects did you study for A-Level?

Maths, Further Maths, Economics and Business Studies.

What are your favourite modules?

Number Theory and Cryptography. The lecturers were brilliant and the content really interesting!

What are you going to specialise in?

Currently I specialise in Statistics.

What do you want to do after Uni?

After Uni I will begin work at PwC in assurance, where I will work towards becoming a Chartered Accountant.

And finally ... What is your favourite Maths joke or chat-up line?

Two cats called '1,2,3' & 'un,deux,trois' had a swimming race across the Channel.
1,2,3 cat won because un, deux, trois cat sank!
