

# You said, we did...

## **You said:**

- Need to know the assignment questions earlier - felt too rushed
- Please hand-write the solutions to questions in lectures - you move through the slides too fast, you clearly have no feel for how long it takes to write stuff down
- BE. MORE. ORGANISED.

## **I did:**

- Assignment questions released in the first week (with a recent amendment made for questions in assignment 1!)
- I'm now hand-writing solutions on the doc-cam (though in semester 1 the third years complained about me being left-handed)
- I am trying to (appear to) be more organised - webpage and blackboard etc.
