

C.F. BARENGHI

BOOKS

3. *A Primer on Quantum Fluids*, by C.F. Barenghi and N.G. Parker, Springer (2016).
2. *Vortices and Turbulence at Very Low Temperatures*, edited by C.F. Barenghi and Y.A. Sergeev, CISM Courses and Lecture Notes, Springer (2008)
1. *Quantized Vortex Dynamics And Superfluid Turbulence*, Springer's Lecture Notes in Physics **571** (2001), edited by C.F. Barenghi, R.J. Donnelly and W.F. Vinen.

BOOK ARTICLES, ETC

2015-2016

46. N.G. Parker, A.J. Allen, C.F. Barenghi and N.P. Proukakis, A quantum storm in a teacup, in *Universal Themes of Bose-Einstein Condensation*, Cambridge University Press (2016), edited by David Snoke, Nikolaos Proukakis and Peter Littlewood.

2014

45. E. Varga, C.F. Barenghi, Y.A. Sergeev and L. Skrbek, Two-dimensional simulation of vortex point and tracer particles in counterflowing He-II, EPJ Web of Conferences **67**, 02124 (2014).
44. A. White, N. Proukakis, C. Barenghi Isaac Newton Institute TOD conference proceedings *Knotted, Linked and Tangled Flux in Quantum and Classical Systems* edited by K. Bajer, (arXiv:1303.0640)

2013

43. F. Maggioni, S.Z. Alamri, C.F. Barenghi and R.L. Ricca, Vortex knots dynamics in Euler fluids, in IUTAM Symposium on Topological Fluid Dynamics: Theory and Applications, ed. by H.K. Moffatt, K. Bajer and Y. Kimura, Procedia IUTAM, vol. 7, pp. 29–38 (2013).
42. A.J. Allen, C.F. Barenghi, N.P. Proukakis, and E. Zaremba, A Dynamical Self-Consistent Finite Temperature Kinetic Theory: The ZNG Scheme, to appear in *Quantum Gases: Finite Temperature and Non-Equilibrium Dynamics* (Vol. 1 Cold Atoms Series). N.P. Proukakis, S.A. Gardiner, M.J. Davis and M.H. Szymanska, eds. Imperial College Press, London (in press)

2011

- 41. A.W. Baggaley and C.F. Barenghi, Turbulent cascade of Kelvin waves on vortex filaments, J. Phys. Conf. Ser. **318**, 062001 (2011)
- 40. D.H. Wacks and C.F. Barenghi, Shell Models of Superfluid Turbulence, J. Phys. Conf. Ser. **318**, 092033 (2011).
- 39. A.C. White, N.P. Proukakis, A.J. Youd, A.W. Baggaley and C.F. Barenghi, Turbulence in a Bose-Einstein condensate, J. Phys. Conf. Ser. **318**, 062003 (2011).

2010

38. C.F. Barenghi, Laminar, turbulent, or doubly turbulent? *Physics* **3**, 60 (2010).

2009

37. S. Alamri, A.J. Youd, and C.F. Barenghi, Reconnection of vortex bundles, in *Advances in Turbulence XII*, ed. by B. Eckhardt, Springer (2009)
36. Y.A. Sergeev, C.F. Barenghi, and N. Suramlishvili, Visualization of quantum turbulence in $^3\text{He-B}$ by thermal excitations in *Advances in Turbulence XII*, ed. by B. Eckhardt, Springer (2009)
35. E. Leveque, C.F. Barenghi and P.-E. Roche, Turbulent cascade of quantum fluid at finite temperature in *Advances in Turbulence XII*, ed. by B. Eckhardt, Springer (2009)
34. S.W. Van Sciver and C.F. Barenghi, Visualisation of quantum turbulence, *Progress of Low Temperature Physics: Quantum Turbulence*. Vol. 16, ed. by W.P. Halperin and M. Tsubota (2009) (invited).

2007

33. "Knots and unknots in superfluid turbulence", C.F. Barenghi, *Milan Journal of Mathematics*, **75** 177–196 (2007).
32. "Tracer particles in turbulent superfluid helium" Y.A. Sergeev, C.F. Barenghi and D. Kivotides, in *Advances In Turbulence XI*, ed. by J.M.L.M. Palma, A. Silva Lopes, page 11–13, Springer, 2007.
31. "Trajectories of solid particles in a tangle of vortex filaments" A.J. Mee, D. Kivotides, C.F. Barenghi and Y.A. Sergeev, in *Advances In Turbulence XI*, ed. by J.M.L.M. Palma, A. Silva Lopes, page 55–57, Springer, 2007.

2005

30. "Suprafluidität" (in German), by C.F. Barenghi, in *Effekte der Physik und ihre Anwendung*, ed. by Manfred von Ardenne, Gerhard Musiol and Siegfried Reball, Verlag Harri Deutsch (2005) (invited).

2004

29. "Turbulent transitions for fluids", C.F. Barenghi, *Physics World* **17**, 17–18 (2004), invited.
28. "Vortex instability in rotating superfluid turbulence", by C.F. Barenghi, M. Tsubota, T. Araki and A. Mitani, *Advances In Turbulence IX*, (2004).
27. Hydromagnetic instabilities in Taylor-Couette flow at finite and infinite aspect ratio," by A.J. Youd, C.F. Barenghi and A.P. Willis, in *MHD Couette Flows* ed. by R. Rosner, G. Ruediger and A. Bonanno, AIP Conference Proceedings **733**, 2004, page 83.

26. "Tangled eye movements: a new method to quantify human scan paths", by L. Gareze, Y. Tadmor, C.F. Barenghi and J.M. Harris, *Perception* **33** 133–133 Suppl. S (2004).
25. "Turbulent transitions for fluids", C.F. Barenghi, *Physics World* **17**, 17–18 (2004) (invited).
24. "Vortex instability in rotating superfluid turbulence", by C.F. Barenghi, M. Tsubota, T. Araki and A. Mitani, *Advances In Turbulence IX*, (2004).

2003

23. "Superfluid turbulence: numerical simulations of vortex reconnections" by C.F. Barenghi, in *Reynolds Number Scaling In Turbulent Flow* ed. by A.J. Smits and K.R. Sreenivasan, Kluwer (2003), (invited).
22. "Waves and turbulence stir superfluids" by C.F. Barenghi, *Physics World*, **16** 20 (2003), (invited).
21. "Superfluid turbulence: numerical simulations of vortex reconnections" by C.F. Barenghi, in *Reynolds Number Scaling In Turbulent Flow* ed. by A.J. Smits and K.R. Sreenivasan, Kluwer (2003), (invited).

2002

20. "Energy and pressure spectra in superfluid turbulence" by C.F. Barenghi, D. Kivotides, J.C. Vassilicos and D.C. Samuels, *Advances In Turbulence IX*, ed. by I.P. Castro, P.E. Hancock and T.G. Thomas, CIMNE (2002).
19. "The degree of tangleness of knotted vortex filaments", by D.R. Poole, C.F. Barenghi and D.C. Samuels, *Advances In Turbulence IX* ed. by I.P. Castro, P.E. Hancock and T.G. Thomas, CIMNE (2002).
18. "Complexity measures of tangled vortex filaments", by C.F. Barenghi, R.L. Ricca and D.C. Samuels, *Proceedings of the IUTAM Symposium of Tubes, Sheets And Singularities In Fluid Dynamics* (2002).

2001

17. "Turbulence in superfluids", C.F. Barenghi, in *Turbulence: Structure and Modulation*, Springer's CISM, Courses and Lectures **415** (2001), ed. by A. Soldati and R. Monti, pp.77–92 (invited).
16. "Introduction to superfluid vortices and turbulence" C.F. Barenghi, in *Quantized Vortex Dynamics And Superfluid Turbulence*, pp. 3–13, Springer's Lecture Notes in Physics (2001), ed. by C.F. Barenghi, R.J. Donnelly and W.V. Vinen, (invited).

15. "Numerical methods for coupled normal fluid and superfluid motion in He II", by D. Kivotides, O.C. Idowu, C.F. Barenghi and D.C. Samuels, in *Quantized Vortex Dynamics And Superfluid Turbulence*, Springer's Lecture Notes in Physics (2001), pp.162–176, ed. by C.F. Barenghi, R.J. Donnelly and W.F. Vinen.
14. "Vortices and stability in superfluid boundary layers", by S.P. Godfrey, D.C. Samuels and C.F. Barenghi, in *Quantized Vortex Dynamics And Superfluid Turbulence*, Springer's Lecture Notes in Physics (2001), pp. 184–190, ed. by C.F. Barenghi, R.J. Donnelly and W.F. Vinen.

2000

13. "Turbulence in liquid helium" D. Kivotides, C.F. Barenghi and D.C. Samuels, *Advances In Turbulence VIII*, ed. by C. Dopazo, pp. 929–932, CISME, Barcelona (2000).
12. "Superfluid Couette flow", C.F. Barenghi in *Physics Of Rotating Fluids*, ed. by C. Egbers and G. Pfister, Springer's series on Lecture Notes in Physics (2000), (invited).
11. "Vortex lines and vortex tangles in superfluid helium" C.F. Barenghi, p. 104, in *Turbulence Structures And Vortex Dynamics* edited by J.C. Vassilicos and J.C.R. Hunt, Cambridge University Press (2000) (invited).

1998

10. "Vortex knots", R.L. Ricca, D.C. Samuels and C.F. Barenghi, in *Advances In Turbulence VII* edit by U. Frisch, Kluwer Academic Publishers, 369 (1998).
9. "Vortex structures in turbulent superfluid flow", C.F. Barenghi, D.C. Samuels, G.H. Bauer and R. J. Donnelly, in *Advances In Turbulence VII* edit by U. Frisch, Kluwer Academic Publishers, 331 (1998).
8. "Turbulence in pipe flow of helium II", D.J. Melotte and C.F. Barenghi, in *Advances In Turbulence VII* edit by U. Frisch, Kluwer Academic Publishers, 89 (1998).

1997

7. "On a numerical solution to the magnetoconvection problem", M.R. Walker and C.F. Barenghi, *Acta Astron. et Geophys. Univ. Comenianae* **XIX**, 293 (1997).
6. "A numerical investigation of vortex coupled superfluidity", C.F. Barenghi, G.G. Bauer, D.C. Samuels and R.J. Donnelly, *Czech. Journal of Physics* **46**, 29 (1996)

5. "Nonlinear Taylor flow of helium II", K.L. Henderson & C.F. Barengi, Czech. Journal of Physics **46**, 75 (1996)

1994

4. "Quantized vortices between rotating cylinders", C.F. Barengi, Bericht 2 / 1994, Max Plank Institut fur Stromungsforschung, 77-78 (1994).

1992

3. "Nonlinear dynamos in a spherical shell" C.F Barengi, in *Theory Of Solar And Planetary Dynamos* ed. by M.R.E. Proctor and A. Gilbert, Cambridge 1993.

1990

2. "A spectral method for time modulated Taylor Couette flow", C.F. Barengi, Computer Methods Applied Mechanics and Engineering **80**, 223-227 (1990).

1983

1. "Axial homogeneity, anisotropy and drift of a tangle of quantized vortices in HeII", C.F. Barengi, C.E. Swanson and R.J. Donnelly, in *75th Jubilee Conference On Helium4*, ed. by J.G.M. Armitage, World Scientific Publishing Co. 52-53 (1983).
